

**Innovating education through creativity, technology, and
storytelling. U.S. Provisional Patent Application No. U.S. Patent
Pending Educational Innovation — Filed October 10, 2025**

Lisa Y. Frazier — Software Engineer • Author • Publisher • Inventor

About Lisa Lisa Y. Frazier is a software engineer, author, publisher, and inventor behind Butterfly Perfect™ — a children's imagination brand dedicated to joyful learning. She creates picture books that blend story, STEM, and character-building with accessible language and vibrant visuals. Lisa's work focuses on building confidence in early readers and empowering families to learn together. Her latest innovation extends this mission into technology with a patent-pending interactive ink system for eBooks, designed to help children write, color, solve, and collaborate directly within digital pages using stylus, touch, or mouse input.
